Brian P. Ackerman, PhD
Department of Psychology
University of Delaware

Dear Dr. Ackerman,

The Department of Biological Sciences approves the move of the Neuroscience major in your department from provisional to permanent status. The faculty recognize this is an important major that benefits the undergraduate students and as well as the research initiative on campus. Many of our courses are required or listed as electives for this program and we will continue to support these students in our curriculum.

I look forward to seeing the Neuroscience program grow on the University of Delaware campus and am happy that Biological Sciences can be part of it.

Best regards,

A handwritten signature in black ink that reads "Randall L. Duncan".

Professor and Chair
