"RESOLVED, that this Senate believes that the effectiveness of the teaching of the History and Government of Delaware at this University would be increased if such a course were offered on an elective basis for all undergraduates, rather than being a requirement for all undergraduates as at present; and that such a course should be a requirement for prospective elementary school teachers and secondary school social studies teachers; and that such a course should be offered as an in-service program for teachers coming to this State from other schools or colleges."
